

PLYMOUTH DIGITAL PHOTOGRAPHERS CLUB

presents

Rick Sammon

This Canon Explorer of Light event sponsored by Canon

Rick Sammon is one of the most renowned and respected photographers. Rick, who has photographed in almost 100 countries around the world, gives more than two-dozen photography workshops and presentations around the world each year. When asked about his photo specialty, Rick says, "My specialty is not specializing."

Now you can learn directly from Rick when you attend our Photography Seminar.

While many professional photographers possess great skill behind the lens or in the digital darkroom, few share Rick's unique ability to teach these skills to others. Through his many wonderful books, videos, articles and workshops, he has helped thousands of photographers improve their images with his insight and experience.

Seminars over the past several years were very well-received and well-attended so we are continuing with Ricks's highly-acclaimed seminars in multiple cities. *Space is limited, so we strongly recommend early registration.*

Rick's teaching style is clear, concise and highly informative. When the seminar is over, attendees will have a solid understanding of many basic and advanced principles related to photography and the digital darkroom.

Throughout the seminar there will be plenty of time for Rick to answer questions. Rick will be autographing his books at the event.

ITINERARY:

9:30–10:00 AM Sign in and Rick Sammon print preview

10:00–Noon Seminar begins promptly at 10:00 AM.

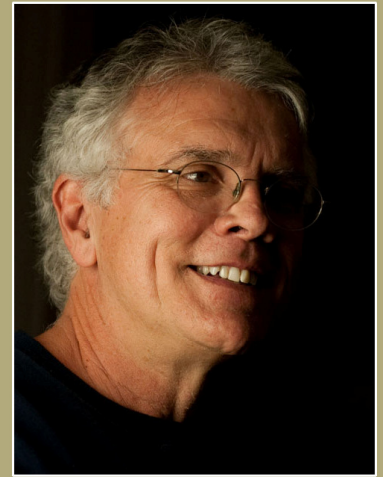

Noon–1:00 PM Lunch (meal is included in the seminar fee)
